Experience

iOS Program Manager @ Lambda School

08/2019 - current

Responsible for managing 6 direct-report instructors on instructional excellence, professional development, and mentorship best practices. Also provide cross functional leadership to Admissions, Student Success, Marketing, Curriculum, and Assessment. Act as a subject matter expert for the iOS curriculum.

iOS Instructor @ Lambda School

04/2019 - current

Lead cohorts of dozens of students at a time to learn the fundamentals of software development, mobile design, and iOS architecture in a virtual, live classroom setting.

Senior Application Developer @ StackPath

11/2017 - 03/2019

Built iOS applications for several different VPN brands owned by StackPath. Worked with custom framework used on iOS and Mac.

Lead Instructor & Curriculum Lead for Mobile @ The Iron Yard

01/2015 - 10/2017

Taught 7 cohorts, comprising dozens of students. Managed the development of Mobile curriculum and provided mentorship and guidance to other instructors.

Senior iOS Developer @ BlueToad, Inc.

04/2014 - 12/2014

Implemented a major UI and structural overhaul of the code base for a large iOS application. Managed team of three overseas iOS developers.

Senior iOS Developer @ SecureNet Technologies

11/2013 - 03/2014

Built a native iOS application using an existing web-based application as reference. Used by security system technicians during home installs.

Senior iOS Developer @ Presidio

02/2013 - 06/2013 (Contract)

Built a native iOS app for tracking expense report receipt images.

Lead iOS Developer @ Transaction Data Systems

01/2009 - 02/2013

Designed and built an iPad application for managing deliveries from pharmacies to their customers, both commercial and residential.

Worked with C# and .NET to develop Windows Mobile applications. Used Java to create a backup solution and wrote several shell scripts.
